

Albertsons-- If you or anyone you know shops at Albertsons you can link your preferred card to the RCMC account and I receive a quarterly check from them. We earn up to 2% on what you spend and 80% of that is then deposited into your child's band account. To register go to Albertsons.com, click on In the Community at the bottom of the page. Click on the Community Partners at the right side of the page. Click on Log-in or register and enter your card number and 10 digit phone number. Click on My Account. Click on Add a Partner and enter the following number : 49000103400 (which is under Rancho Cucamonga High School – Marching Cougars) and click on Add Partner and specify 100% of contributions to us. If your card is already registered with another organization you can update your partners. If you have questions or problems registering I can help you if you call me or I can register you if I have your number and phone number. If you have friends or family who shop at Albertsons they can also register with the band but I must have their name in order to credit your student's account for their shopping. Be sure to let me know the student's name if you are giving me multiple names so I can credit it properly.

Ralphs-- This works pretty much the same way as Albertsons except Ralphs percentages fluctuate so every quarter I get from them an information sheet on how much your account has earned. 80% of those earnings will be deposited into your child's account. You must set this up yourself by going to Ralphs.com, click on Sign-in/Register and follow their instructions to sign up. Our NPO number is 83365. Ralphs has instituted a new policy where participants **must** re-register each year in September, so even if you were registered last year you must re-register yourself. You can have family or friends register as well but please let me know their names so I can credit your student's account.

Ralphs and Albertsons take no additional effort from you once they are set up... it's a great way to earn some money for your account just for shopping!

Please note that I receive quarterly statements from these companies so there is usually a 4 to 6 month lag time between when your purchases are made and when we receive credit for them.
